Applicant date

I _____ the applicant understand that I am responsible for the work being performed and the safety to the general public at the work site listed on this application. I agree in no way will I hold the City of Coatesville responsible for work being performed and agree to defend the City of Coatesville against any action, suits, demands, payment and cost for any and all monies should an action arise do to the work being performed at the work site listed on this application.

Applicant date

No private work will be done between November 15th and April 1st. Private work may be completed if approved by the city engineer or be needed due to emergency reasons should it fall in during the winter prohibited time frame. Work deeper than 1.5 inches shall be covered by steel plates during non-working hours. Plates should be steel and not less than 1" thick, with a 1' over hang on edges of roadway. They shall also be ramped by asphalt and secured in place by steel pins. During the winter season the plate shall be recessed by the depth of the plate and pins be secured in a manor not to create a hazard to possible plowing actions should it be needed due to weather.
